

OUGIST Product Use & Safety Guide

Quick customer reference for using, storing, inspecting, and maintaining your OUGIST fire extinguisher. Keep this guide with the product record after warranty registration.

Important safety notice: Only attempt to extinguish small, contained fires. If the fire spreads, smoke increases, or you feel unsafe, evacuate immediately and call 911.

Before You Use It

- Read the label and instructions printed on the extinguisher before an emergency occurs.
- Confirm the extinguisher is accessible, upright, and not blocked by furniture, boxes, or equipment.
- Check that the pressure indicator is in the acceptable range before relying on the unit.
- Keep your exit path behind you. Do not let fire, smoke, or heat block your escape route.

PASS Method

P	<p>Pull the pin Hold the extinguisher upright and pull the safety pin before aiming.</p>
A	<p>Aim at the base Stand back and point the nozzle at the base of the fire, not at the flames.</p>
S	<p>Squeeze the lever Squeeze slowly and evenly to discharge the agent.</p>
S	<p>Sweep side to side Sweep across the base of the fire until it is out. Watch for re-ignition.</p>

Routine Inspection

Monthly	Confirm the extinguisher is visible, upright, undamaged, and ready to access.
Gauge	Check the pressure indicator according to the product label. If pressure is low or abnormal, contact OUGIST support.
Seal & pin	Make sure the safety pin and tamper seal are in place unless the extinguisher has been used.

After use

Do not reuse a discharged extinguisher. Register the incident and contact support for service or replacement guidance.

Storage Guidance

- Store in a dry, visible, and easy-to-reach location.
- Avoid prolonged exposure to high heat, freezing temperatures, moisture, or corrosive chemicals.
- Do not paint, modify, puncture, or tamper with the extinguisher body, hose, valve, label, or gauge.
- Keep the product and registration record together for faster support.

Support
